As a new hire, you must complete your enrollment within 30 days of your date of hire. After you've enrolled, benefits become effective according to the schedule on page 4 and continue through the end of the plan year or the last day of the month in which your employment ends.

Annual Benefits Open Enrollment

You have an annual opportunity to enroll, terminate, or make changes to your benefits. This enrollment period is referred to as "Open Enrollment" and is typically held in November.

The benefits you elect during Open Enrollment become effective the following plan year (January 1 – December 31).

eHealth Highlights

- ✓ Provides assistance in obtaining COBRA-alternative coverage should you become ineligible for Blair Academy health insurance due to termination of employment or reduction in hours.
- ✓ Obtain benefits at a lower cost than COBRA.

SmartConnect Highlights

- ✓ Provides assistance for Medicare eligible employees or family members.
- ✓ Can assist you with alternatives once you are no longer eligible for the Blair Academy plans.
- ✓ Helps you understand your options while you are still working.
- ✓ Provides answers and support for general Medicare questions.

BENEFITS ELIGIBILITY

EMPLOYEES

You are eligible to participate in the benefits program if you are a full-time employee scheduled to work at least 1,560 hours per year.

DEPENDENTS

You may add your eligible dependents to your medical, dental and vision plans.

Eligible dependents include:

- ✓ Your spouse.
- ✓ Biological and/or legally adopted child(ren) through the end of the calendar year in which they turn 26.
- ✓ A handicapped child, stepchild or any child for whom you have been appointed legal guardian, or as required by court order.
- ✓ A child for whom legal guardianship has been awarded to you or your spouse
- ✓ A child who is the subject of a Qualified Medical Child Support Order (QMCSO) dated on or after August 10, 1993.
- ✓ An unmarried child who is incapable of self-sustaining employment by reason of mental or physical disability and is primarily dependent on you for maintenance and support, and the child was covered under the plan prior to reaching age 26 and the disability began before the child reached age 26.

You can only make changes to your benefits during the plan year if you have a Qualified Life Event, which includes any of the following:

- ✓ A change in the size of your family (resulting from marriage, divorce, legal separation, annulment, birth, adoption, placement for adoption, or death of a covered family member).
- ✓ A dependent no longer satisfies the definition of eligible dependent due to turning age 26.
- ✓ You or your spouse experience a substantial change in employment (such as changing between full-time and part-time employment, a strike or lockout, or commencement of or return from an unpaid leave of absence).
- ✓ Your spouse gains employment or loses a job.
- ✓ Your spouse or dependent experiences a significant change in health coverage attributable to his or her employment.
- ✓ You or your eligible dependent becomes eligible for Medicare or Medicaid (other than solely for pediatric vaccines) or you lose your eligibility for either of these programs.
- ✓ The employer of your spouse offers benefits with a different Open Enrollment period.
- ✓ A court-issued judgment, decree, or order (including a Qualified Medical Child Support Order) resulting from divorce, legal separation, annulment, or change in legal custody that requires health coverage of your dependent child.
- ✓ A change in your employment status, including loss of coverage due to increased/reduced hours or going on Family Medical Leave.

No Benefit Changes During the Year

After you've enrolled, you may not make changes to your benefits during the year unless you experience a "Qualified Life Event." You must notify Human Resources within 30 days of the event to make a corresponding change to your benefits.

MEDICAL BENEFITS

Blair Academy offers three medical plan options administered by Allied using the Aetna network. See page 10 for a side-by-side plan comparison.

PPO PLAN

PPO PLAN

The PPO, or Preferred Provider Organization (PPO), Plan has a preferred network of doctors and hospitals (“providers”) who have agreed to negotiated discounts with the plan. You have the freedom to use any provider, but your cost will almost always be less when you use in-network providers because you receive these negotiated discounts.

It is your responsibility to confirm that the providers you wish to use are in the plan’s network (see page 12 for instructions on finding a network provider near you).

The PPO is a traditional plan where you typically pay a flat dollar amount (your copay) when you receive care.

- ✓ The PPO Plan works well for those who are willing to pay more each paycheck to have a predictable expense when they go to the doctor.

EPO PLAN

The EPO, or Exclusive Provider Organization (EPO), Plan only allows you to get health care services from doctors, hospitals, and other providers who are within the Aetna network. Like the PPO Plan, providers in the EPO network have agreed to provide services to plan participants at negotiated rates. The plan does not cover any costs you incur from going to someone outside of the Aetna network. The only exception is that emergency care is usually covered.

EPO PLAN

With the EPO, you typically pay a flat dollar amount (your copay) when you receive care.

- ✓ The EPO Plan is a good option for those who want a predictable expense when they go to the doctor and are willing to pay less in premium than the PPO Plan in exchange for having to stay in-network.

HSA PLAN

The HSA Plan includes the features of the PPO Plan and meets certain criteria that allows you to contribute to a Health Savings Account (HSA). The HSA Plan used in conjunction with a Health Savings Account offers you a tax-free* way to help build savings to pay for health care expenses now and into retirement.

- ✓ HSA plans work well for those who want more control over their health care expenses and another way to defer pre-tax dollars for health expenses now and in the future (even into retirement). *With this plan you pay the least in premium but the most out-of-pocket when you receive care (see page 16 to find out how an HSA works with the plan).*
- ✓ Before you enroll in the HSA Plan, be sure you are eligible to contribute to an HSA. (See page 17 to learn more.)

*HSA grows on a tax-deferred basis and the distributions for qualified medical expenses are tax-free. State taxes may apply. Consult your tax advisor for details.

HSA PLAN

How does the HSA Plan work?

Like the PPO Plan, the HSA Plan gives you access to a vast network of physicians and other health care providers. You also have the flexibility to use out-of-network providers for a reduced benefit. But the HSA Plan works differently when you receive care. Here's how the HSA Plan works:

The plan pays 100% for preventive care services when you use an in-network provider.

You pay the full cost for non-preventive services (including prescriptions) until you meet your annual deductible.**

After you meet your annual deductible, you will pay a percentage of the cost (your coinsurance) until you meet the out-of-pocket maximum.

Once you reach your out-of-pocket maximum, the plan pays 100% of the cost for the rest of the plan year.***

The HSA Plan costs less per-paycheck than the PPO Plan, so you can use what you save each paycheck to fund your HSA. You'll enjoy tax advantages and can use the money in your HSA to pay for eligible medical, dental and vision expenses, including your deductible and out-of-pocket expenses.

**Some exclusions apply. See the plan summary for details.

***For services covered under the plan. Out-of-network coverage is limited to the plan's "reasonable and customary" rates; balance billing may apply. See your plan summary or your Campbell Petrie Benefits Advocate for details.

Embedded vs Non-Embedded Deductible – Know the Difference

If you are covering one or more family members on your medical plan, your deductible could be “embedded” or “non-embedded.” Depending on your family’s health care needs, this distinction could have a big impact on your costs and help you determine which plan is best for you.

Embedded Deductibles (PPO Plan & EPO Plan) have two levels of deductible expense for families:

1. The overall family deductible
2. The “embedded” individual deductible that is built into the family deductible.

If only one family member has a major surgery or other covered expense, that person will only need to meet the individual deductible, and then the plan will start paying toward that individual’s costs (even if the family deductible has not been met).

Non-Embedded Deductibles (HSA Plan) only have one family deductible level. That means, if only one family member has a major surgery or other covered expense, that person (or other family members) must satisfy the full family deductible before the plan will start paying.

Note: while the HSA Plan has a Non-Embedded Deductible, it has an Embedded Maximum Out-of-Pocket (the most you would have to pay in the plan year for covered expenses).

¹Your benefit with out-of-network providers is limited to what the plan considers 'reasonable and customary'. If your provider charges more than the plan allows, you are responsible for paying the additional charges.

²The PPO and EPO plans have an "embedded deductible and out-of-pocket maximum," while the HSA plan has a "non-embedded" deductible but an "embedded" out-of-pocket maximum.

³HSA plans require you to satisfy the full deductible before paying for any non-preventive services (including prescription drugs). The in- and out-of-network deductible cross accumulates.

⁴The out-of-pocket maximum includes the deductible, coinsurance and copayments (including prescription drug copayments).

PRESCRIPTION DRUG BENEFITS

Prescription drug coverage is included with your medical benefits. When you enroll in one of the Blair Academy medical plans, you and any family member you've enrolled have prescription drug benefits through SmithRx.

YOUR OPTIONS FOR PRESCRIPTION DRUGS

[Click here](#) to view preventive medications covered at a \$0 copay and not subject to the deductible, even under the HSA Plan.

GENERIC MEDICATIONS

Generic medications are always your lowest cost option.

PRESCRIPTION DRUG SERVICE	PPO PLAN	EPO PLAN	HSA PLAN

90-day supply (home delivery & retail)	\$0.00	\$0.00	10% after deductible

PREFERRED BRAND MEDICATIONS*

Preferred brand medications are your lowest cost option for brand medications.

TIP: Generic medications offer the same potency and quality as brand name drugs. If your doctor prescribes a brand medication, it often pays to ask your doctor if there's a lower-cost drug available.

PRESCRIPTION DRUG SERVICE	PPO PLAN	EPO PLAN	HSA PLAN
30-day supply	\$35.00	\$35.00	10% after deductible
90-day supply (home delivery & retail)	\$70.00	\$70.00	10% after deductible

NON-PREFERRED BRAND MEDICATIONS*

Non-preferred brand medications are your middle-tier option.

TIP: Brand medications that are not on your plan's list of "preferred" medications will incur a higher cost. If your doctor prescribes a brand medication, it often pays to ask your doctor if there's a lower-cost drug available.

PRESCRIPTION DRUG SERVICE	PPO PLAN	EPO PLAN	HSA PLAN
30-day supply	\$50.00	\$50.00	10% after deductible
90-day supply (home delivery & retail)	\$100.00	\$100.00	10% after deductible

SPECIALTY MEDICATIONS

(must be filled through Senderra Rx Specialty Pharmacy or Kroger Specialty Pharmacy)

Specialty medications are your highest cost option.

Specialty medications typically include high-cost injectables and medications that have special handling instructions or require close monitoring and may not be available at retail pharmacies.

PRESCRIPTION DRUG SERVICE	PPO PLAN	EPO PLAN	HSA PLAN
30-days supply (preferred brand/non-preferred brand)	\$35/\$50	\$35/\$50	10% after deductible

Some specialty medications may qualify for the SmithRx Connect Program – in some instances having a \$0 copay. You will be contacted if you qualify for this program.

*[Click here](#) for the prescription drug formulary – this will allow you to search a drug and see it's category (e.g., preferred brand or non-preferred brand) See page 15 more information about SmithRx.

IN-NETWORK PHARMACIES

There are over 75,000 pharmacies, including national chains (e.g., Costco, CVS, Target and Walgreens) and independent retailers, across the United States in the SmithRx network. The list is subject to change from time to time, so call SmithRx Member Services at **844-454-5201** to confirm if your pharmacy is in-network.

MAIL ORDER PHARMACY

Rather than visiting a pharmacy month after month for medications you take regularly (such as high blood pressure or diabetes medicine), save time by having the medication delivered to your home.

Through **Amazon Pharmacy**, you can pay a lower price because one 90-day supply typically costs less than three 30-day supplies.

Visit www.amazon.com/smithrx and click “Get Started” or click the QR code to the right to register.

- ✓ E-prescribe or fax to 512-884-5981
- ✓ Interactive voice recognition (IVR) or call 800-759-3203

SPECIALTY PHARMACIES

A member of the SmithRx Connect Program will direct you to which specialty pharmacy to use. Below are the enrollment contact numbers and links for prescribers to complete the required paperwork.

- ✓ **Senderra Rx: 888-777-5547** and <https://senderrax.com/prescribers/forms>
- ✓ **Kroger Specialty Pharmacy: 888-355-4191** and www.krogerspecialtypharmacy.com.

Please note that faxed specialty prescriptions will only be accepted from the prescriber.

What is a formulary?

A drug formulary is a list of prescription drugs covered by your medical plan. Most prescription drug formularies separate the medications they cover into five drug categories, or “tiers.” These groupings range from the least expensive to most expensive cost to you. “Preferred Brand” drugs generally cost you less than “Non-Preferred Brand” drugs.

Get the most from your coverage

To get the most out of your prescription drug coverage, note where your prescriptions fall within your plan’s drug formulary tiers and ask your doctor for advice. Generic drugs are usually the lowest cost option. Generics are required by the Food and Drug Administration (FDA) to perform the same as brand-name drug equivalents.

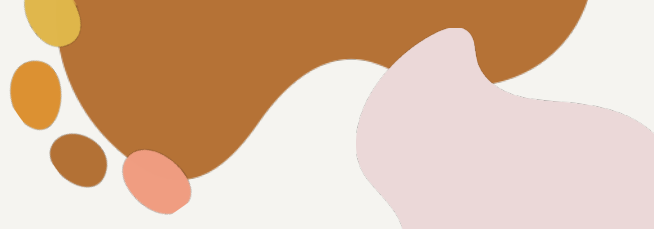

You can use the [drug lookup tool](#) to check medication coverage or call Member Services at **844-454-5201** for assistance.

Additional ways SmithRx can help you save

You can use the SmithRx Find **My Meds Tool** to see a list of online and retail pharmacies near you that will provide your medication at the lowest cost. Access the Find My Meds tool on the SmithRx portal at smithrx.com/members or call **844-454-5201** for assistance. Your medical plan ID card has all the information that your pharmacy needs to find the best deals for you at point of sale.

Through the **SmithRx Connect Program**, you may be eligible for additional savings on specialty medications. You will be contacted directly if you are eligible for this program, resulting in low or \$0 copays on certain medications.

HEALTH SAVINGS ACCOUNT (HSA)

If you enroll in the HSA Plan, you may be able to contribute to a Health Savings Account (HSA) administered by Ameriflex. An HSA allows you to pay for qualified health care expenses incurred by you, your spouse, and your dependent children (even if they are not covered on your medical plan).

Qualified health care expenses under federal tax law include most medical, dental, and vision care services (e.g., deductibles, coinsurance, and copays); prescription drugs; and prescribed over-the-counter medications. A complete list of HSA-eligible expenses can be found in IRS Publication 502, Medical and Dental Expenses, located at www.irs.gov.

If you choose to enroll in the HSA Plan, there are IRS rules you must follow, and it is your responsibility to make sure you are complying with those rules. You may wish to consult with your tax advisor for additional guidance.

You will receive an Ameriflex Debit Mastercard® when you enroll in the HSA Plan. Your HSA card can be used for qualified medical expenses billed from an insurance company, a physician's office or pharmacy.

Learn more about HSAs and access additional resources at www.myameriflex.com.

Why should you consider an HSA?

- ✓ **Triple tax savings.*** You enjoy tax savings when you contribute to your account, tax-free earnings through the investments you choose, and tax-free withdrawals to pay for qualified medical expenses.
- ✓ **It's flexible.** Your HSA is yours to keep, and you choose how to use the money in your account. You can use it for eligible health care expenses, or you can save it and let it grow.
- ✓ **No “use it or lose it” rule.** Your unused funds roll over from year to year, enabling you to build your account and pay for future expenses. After the first year, your account balance may be higher than your annual deductible, so the HSA can financially protect you years from now — even after you retire.
- ✓ **You own your account.** Even if you leave Blair, your HSA — and any money in your account — is yours to keep. You can even use your HSA as retirement income at age 65.

*The tax advantages for HSAs apply to federal income tax only. Some states (including Alabama, California, New Jersey, and Wisconsin) tax HSA contributions and/or earnings. Consult with your tax advisor for details.

HEALTH SAVINGS ACCOUNT

2025 Contribution Limits

The IRS limits the amount you may contribute to your HSA each year. For 2025, these amounts, which include any contributions Blair Academy makes on your behalf, are as follows:

2025 MAXIMUM HSA CONTRIBUTIONS	UNDER AGE 55	AGE 55+
Individual Coverage	\$4,300	\$5,300
Family Coverage	\$8,550	\$9,550

Blair Contributions to Your HSA

Blair Academy contributes to your HSA to help you build savings. These contributions are based on your coverage level and are deposited into your account semi-annually.

COVERAGE LEVEL	ANNUAL AMOUNT
Employee Only	\$825
Employee + Spouse	\$1,300
Employee + Child(ren)	\$1,300
Employee + Family	\$1,650
Two Employees + Family	\$1,650

HSA Eligibility Requirements

The IRS does not permit you to contribute to an HSA if:

- ✓ You have other first-dollar health coverage, such as through your spouse (including a regular Health Care Flexible Spending Account)
- ✓ You are enrolled in Medicare Part A, B or D
- ✓ You are enrolled in TRICARE
- ✓ You have received Veterans Administration (VA) benefits within the past three months, except for preventive care. If you are a veteran with a disability rating from the VA, this exclusion does not apply
- ✓ You are claimed as a dependent on someone else's tax return

Please make sure you meet IRS requirements for an HSA before enrolling. It is your responsibility to make sure you comply with IRS rules for these accounts.

FLEXIBLE SPENDING ACCOUNTS (FSA)

Flexible Spending Accounts (FSAs) allow you to pay for eligible health care and dependent care expenses with tax-free dollars.

If you wish to pay for both health care and dependent care expenses with tax-free funds, you will need to open two separate accounts: a Health Care FSA and a Dependent Care FSA. You cannot use funds in your Health Care FSA to pay for dependent care expenses and vice versa.

Easy Payment Options

Ameriflex, our FSA administrator, makes it easy and convenient to use the money in your FSA to pay for eligible expenses. For health care and dependent care expenses, you have four options:

1. **Use your Ameriflex Debit Mastercard®.** You'll receive your personalized debit card by mail after you enroll, and you can use it just like a bank debit card for instant access to your account. The card pays directly from your account, so you don't have to pay out-of-pocket, file a claim form or wait for reimbursement.
2. **Pay online.** Pay bills directly from your FSA account using the online Pay My Provider tool available when you submit a claim on participant.myameriflex.com. Just log in to your account, identify your health care provider and the amount, and pay your bill online.
3. **Use the myameriflex App.** You can use your cell phone and the myameriflex app to create new claims or submit additional documentation. Just log in, click a few buttons, snap a picture and your claim is done.
4. **File a claim.** Send in claims the traditional way to AmeriFlex for quick reimbursement from your FSA. Just log in, submit a claim and upload documentation online or print, sign and date and mail or fax your claim with your receipts.

You can find more information about all the claims options in the [MyAmeriflex Help Center linked here](#).

"Use it or lose it"

Estimate your expenses carefully. The IRS does not allow Blair to return unused funds to you, so you lose any money remaining in your account at the end of the plan year.

\$660 Rollover (Health Care FSA)

One exception to the "use it or lose it" rule is the end of the year rollover that is permitted for the Health Care FSA. You may carry over up to \$660 of your unused 2025 FSA balance to use in the following plan year. (Note: there is no rollover permitted for the Dependent Care FSA.)

FLEXIBLE SPENDING ACCOUNT (FSA)

HEALTH CARE FSA

You can contribute up to a maximum of \$3,300 a year to pay for eligible health care expenses, including:

- ✓ Deductibles, copays, and coinsurance
- ✓ Physical exams
- ✓ Prescription drugs
- ✓ Over-the-counter medications
- ✓ Vision care (exams, eyeglasses, contact lenses, eye surgery)
- ✓ Preventive and restorative dental care
- ✓ Orthodontia
- ✓ Hearing aids
- ✓ Smoking cessation programs and other treatments
- ✓ Chiropractic care and acupuncture
- ✓ Counseling and therapy

You can carry over 20% of your unused benefit; the accumulated amount can never exceed \$1,000.

²This table is provided for comparison purposes only. Please refer to the Summary Plan Description for complete plan benefits, limitations, and exclusions.

Your Choice of Dentists

Delta Dental offers three levels of dental care.

1. **Delta Dental PPO** contracted providers offer the deepest fee discounts, ranging nationally 35% - 41%.
2. **Delta Dental Premier** contracted providers offer modest fee discounts, ranging nationally 9% - 29%.
3. Non-contracted (out-of-network) providers do not offer discounts. Also, non-contracted dentists are subject to the Delta Dental Plan Allowance – If the dentist charges more than the Allowance, you will have to pay the additional charges.

Your plan coverage is the same with all three levels; however, because of the discounts, you'll get the greatest savings with Delta Dental PPO providers. If you need assistance finding providers, call **800.DELTA.OK (800-335-8265)**.

HOSPITAL INDEMNITY PLAN

ACCIDENT INDEMNITY POLICY

CANCER/CRITICAL ILLNESS POLICY

All Aflac policies:

- ✓ Pay on top of ANY other insurance you may have
- ✓ Are guaranteed renewable (cannot be cancelled due to age or claim)
- ✓ Are fully portable (you take them with you AT THE SAME GROUP RATE if you retire or leave work)
- ✓ Are rate stable (Aflac cannot single you out for a rate increase) regardless of age or claims

HOSPITAL INDEMNITY PLAN

A trip to the hospital can be stressful, and so can the bills. Even with a major medical plan, you may still be responsible for deductibles, coinsurance, and other out-of-pocket costs. A hospital indemnity plan provides a supplemental payment directly to you – unless assigned to someone else – that you can use to cover medical expenses for hospital stays that your plan does not cover.

The plan covers \$1,000 per person per hospital confinement for any reason plus a daily stay benefit of \$50.

ACCIDENT INDEMNITY POLICY

This plan covers you and your family for any (on or off the job) accident or injury – small or large – that requires you to seek medical treatment. Aflac provides cash benefits for injuries including ER visits, hospital stays, physical therapy, follow-up visits, appliances and much more. The plan also includes an accidental life insurance benefit. This plan pays in addition to any other coverage you may have.

CANCER/CRITICAL ILLNESS POLICY

When a serious illness strikes, critical illness insurance can provide financial support to help you through a difficult time. This plan pays you and your family members cash benefits to help with the out-of-pocket expenses associated with cancer treatment, surgery, radiation, chemotherapy, at home health care, mileage, lodging, experimental treatment and more. This plan also pays a \$75 benefit for a cancer screening exam each year, per person on the plan.
